Outlook Mobile Service | An integrated Text Solution for Business

Technology Advantage

OUTLOOK MOBILE SERVICE (OMS)

is a feature rich SMS service that works seamlessly with your existing IT... you don't even have to upgrade your phone!

SEND TEXTS FROM OUTLOOK

Communicate easily via **TEXT** with your colleagues, suppliers or customers no matter which network they are on. Simply add users from your Outlook contact list and type your message. When recipients reply via **TEXT**, their messages are converted back to email and stored in your Inbox!

"I get my important emails sent to me as a text so I don't have to go back to the office"

AUTOMATIC TEXT REMINDERS OF YOUR CALENDAR APPOINTMENTS

Forgetting an appointment or the exact details in your calendar can be annoying, definitely frustrating and sometimes embarrassing...

OMS has the feature to give you Calendar reminders while you are out and about including the details as if you were looking at Outlook. >>> You can also receive a Summary Calendar Alert for the next day's appointments.

RECEIVE EMAILS AS TEXTS

With OMS you can choose to have certain emails forwarded to you as a **TEXT** on your phone to keep you one step ahead.
