

# Outlook Anywhere includes a FREE upgrade to Exchange & Outlook 2007

## Intelligent IT for your Business

1. **Lower cost and hassle** compared to managing your own Exchange Server.
2. **Peace of mind** with improved Disaster Recovery: All your Outlook data is backed up daily in our data centre.
3. **Better Security:** Advanced Anti-spam and Anti-virus filtering.
4. **Improved Flexibility:** Unlike owning a server, with Outlook Anywhere you are not locked into hardware that becomes obsolete.

## Get Mobile with Outlook Anywhere...

1. **Work from Anywhere** – view your emails (including archived emails) / calendar and global contacts from anywhere you have an internet connection using **Outlook Web Access**.
2. **Work on the move** – Get “Push” emails & calendaring to your PDA so you are always up-to-date (including **Blackberry devices**)
3. **SMS Text Alerts** for emails and calendaring available with Outlook 2007.

## Share Information more efficiently...

1. **Share Calendars and Centralised Contacts** information between colleagues – quickly and easily set up meetings.
2. **Use Public Folders** to share documents and store your data securely offsite.
3. **Fully Integrated with Microsoft Instant Messaging** - Office Communicator. View the status of your colleagues and collaborate online.
